

IN THE DRAWINGS:

Kindly replace the current drawings with the enclosed drawing entitled "Replacement Sheet," without prejudice, without admission, without surrender of subject matter, and without any intention of creating any estoppel as to equivalents.

REMARKS/ARGUMENTS

In light of the above amendments and following remarks, reconsideration and allowance of this application are respectfully requested.

I. STATUS OF THE CLAIMS AND FORMAL MATTERS

Claims 9-15 are pending in this application. Applicant respectfully requests that the Examiner consider the present Amendment along with the Amendment filed on October 3, 2005 before issuing an action on the merits.

In the Office Action dated March 28, 2005, the Examiner objected to the drawings for failing to show every feature of the invention specified in the claims. The Office communication dated December 30, 2005 continues to object to the language in the claims related to "the main extension plane . . . inclined to the vertical by an angle of less than 60°."

In response, Applicant has amended the specification and the drawings as indicated above. Support for the amendments can be found throughout the specification of the instant application, for example on page 2, lines 21-25.

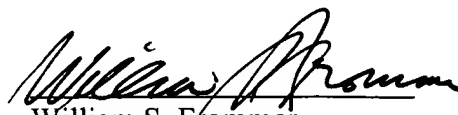

CONCLUSION

In view of the foregoing, it is believed that all of the claims in this application are patentable over the prior art, and an early and favorable consideration thereof is solicited.

Please charge any fees incurred by reason of this response and not paid herewith to Deposit Account No. 50-0320.

Respectfully submitted,
FROMMER LAWRENCE & HAUG LLP
